

HORIBA

“BOOT CAMP” USER TRAINING COURSE LA SERIES PARTICLE SIZE ANALYZERS

Your 2-day Course Includes:

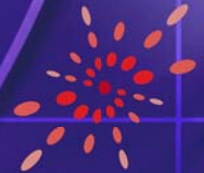

- ✓ Expert Talks mixed with hands-on instrument training
 - Particle Measurement Concepts
 - Laser Diffraction Theory
 - Refractive Index Selection
 - Basic System Operation
 - Data Handling & Export
 - Good Sampling & Dispersion
 - Method Development
 - System Verification
 - Software Automation
- ✓ Extended Q & A time with instrument specialists
- ✓ Customer sample measurement (Bring them with you or send them ahead of time.)
- ✓ Complimentary breakfast and lunch

HORIBA Instruments presents a training course for current users of the LA Series Particle Size Analyzers. The goal is to enhance the user's experience. Instrument use, method development solutions and data interpretation will improve through expert instruction and hands-on instrument training.

Space is limited, so make your reservation(s) early.

The \$1500 fee will be waived for one attendee if reservation is made within one year of analyzer purchase.

USER TRAINING COURSE OCTOBER 21 & 22, 2008 - IRVINE, CALIFORNIA NOVEMBER 5 & 6, 2008 - EDISON, NEW JERSEY

The HORIBA Particle Characterization Technical Seminar is intended for current users of HORIBA's Partica LA-950 Analyzer. The intent is to promote a greater understanding of the underlying theories and practices in the field of particle characterization that will allow the end user to more successfully utilize the instrument, be better prepared for method development challenges and to more completely understand and interpret results.

Space is limited, so please reserve early.
