## Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Commission Regulation (EU) 2015/830 - United Kingdom (UK)

## **HORIBA**Advanced Techno

# **SAFETY DATA SHEET**

00568 EU

## SECTION 1: Identification of the substance/mixture and of the company/ undertaking

#### **1.1 Product identifier**

- Product name Product code SDS Drawing Code SDS Drawing Code
- : Y031L (150ppm K+ standard solution)
- e : 3200457720
- ing Code : Not available.
  - : M003183A

## **1.2 Relevant identified uses of the substance or mixture and uses advised against**

| dentified uses        |
|-----------------------|
| Calibration solutions |
| Uses advised against  |
| Not available.        |

#### 1.3 Details of the supplier of the safety data sheet

HORIBA Advanced Techno Co., Ltd. 2, Miyanohigashi-cho, Kisshoin, Minami-ku, Kyoto, 601-8551 Japan Tel: +81-75- 321-7184

HORIBA Europe GmbH Hans-Mess-Str.6, D-61440, Oberursel, Germany Tel: +49 6172 1396 0

e-mail address of person : techinfo.hor@jp.horiba.com responsible for this SDS

### 1.4 Emergency telephone number National advisory body/Poison Center

Telephone number United: +44 (0)20 7771 5310Kingdom (UK)

## **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Product definition : Mixture

<u>Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]</u> Not classified.

The product is not classified as hazardous according to Regulation (EC) 1272/2008 as amended.

| 2.2 Label elements       |   |
|--------------------------|---|
| Signal word              | : No signal word.   |
| Hazard statements        | : No known significant effects or critical hazards.   |
| Precautionary statements |   |
| General                  | : Read label before use. Keep out of reach of children. If medical advice is needed, have product container or label at hand. |
| Prevention               | : Wear protective gloves and eye or face protection.  |
|                          |   |

 Date of issue/Date of revision
 : 6/29/2021
 00568 EU
 1/10

Y031L (150ppm K+ standard solution)

## **SECTION 2: Hazards identification**

| Response  | 1   | Get medical advice/attention.   |
|---|-----|---|
| Storage   | 1   | Keep cool and protect from sunlight. Store locked up.   |
| Disposal  | :   | Dispose of contents and container in accordance with all local, regional, national and international regulations. |
| Supplemental label elements   | :   | Not applicable.   |
| Annex XVII - Restrictions<br>on the manufacture,<br>placing on the market and<br>use of certain dangerous<br>substances, mixtures and<br>articles | :   | Not applicable.   |
| Special packaging requirem  | nen | <u>its</u>  |
| Containers to be fitted<br>with child-resistant<br>fastenings   | :   | Not applicable.   |
| Tactile warning of danger   | :   | Not applicable.   |
| 2.3 Other hazards   |     |   |
| Other hererde which de  |     | Nene known  |

Other hazards which do : None known. not result in classification

## **SECTION 3: Composition/information on ingredients**

3.2 Mixtures

#### : Mixture

| Product/ingredient<br>name | Identifiers                     | %    | <u>Classification</u><br>Regulation (EC) No. 1272/2008 [CLP] | Туре |
|----------------------------|---------------------------------|------|--|------|
| potassium chloride         | EC: 231-211-8<br>CAS: 7447-40-7 | 0.03 | Not classified.  | [6]  |

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

## **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

| Eye contact                | <ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower<br/>eyelids. Check for and remove any contact lenses. Get medical attention if irritation<br/>occurs.</li> </ul>   |
|----------------------------|---|
| Inhalation                 | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>Get medical attention if symptoms occur.  |
| Skin contact               | <ul> <li>Flush contaminated skin with plenty of water. Remove contaminated clothing and<br/>shoes. Get medical attention if symptoms occur.</li> </ul>  |
| Ingestion                  | : Wash out mouth with water. If material has been swallowed and the exposed<br>person is conscious, give small quantities of water to drink. Do not induce vomiting<br>unless directed to do so by medical personnel. Get medical attention if symptoms<br>occur. |
| Protection of first-aiders | : No action shall be taken involving any personal risk or without suitable training.  |

## 4.2 Most important symptoms and effects, both acute and delayed <u>Potential acute health effects</u>

| Eye contact | : No known significant effects or critical hazards. |
|-------------|---|
|             |   |

| Date of issue/Date of revision | : 6/29/2021 | 00568 EU | 2/10 |

| eathing apparatus (SCBA) with a full face-piece operated in positive<br>ode. Clothing for fire-fighters (including helmets, protective boots an<br>onforming to European standard EN 469 will provide a basic level of p | pressure<br>d gloves)   |
| : No<br>from th<br>: In<br>: No<br>: Pr<br>th<br>su<br>: Fi<br>br<br>m<br>cc   | <ul> <li>Use an extinguishing agent suitable for the surrounding fire.</li> <li>None known.</li> <li>from the substance or mixture <ul> <li>In a fire or if heated, a pressure increase will occur and the container m</li> <li>No specific data.</li> </ul> </li> <li>Promptly isolate the scene by removing all persons from the vicinity of there is a fire. No action shall be taken involving any personal risk or w suitable training.</li> <li>Fire-fighters should wear appropriate protective equipment and self-con breathing apparatus (SCBA) with a full face-piece operated in positive prode. Clothing for fire-fighters (including helmets, protective boots and conforming to European standard EN 469 will provide a basic level of p chemical incidents.</li> </ul> |

## **SECTION 6: Accidental release measures**

| 6.1 Personal precautions, protective equipment and emergency procedures |   |  |  |  |
|---|---|--|--|--|
| For non-emergency<br>personnel  | : | No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Put on appropriate<br>personal protective equipment. |  |  |
| For emergency responders  | : | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |  |  |
| 6.2 Environmental precautions   | : | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).  |  |  |

#### 6.3 Methods and materials for containment and cleaning up

| Date of issue/Date of revision : 6/29/2021 | 00568 EU | 3/10 |
|--|----------|------|
|--|----------|------|

**HORIBA**Advanced Techno Y031L (150ppm K+ standard solution)

## SECTION 6: Accidental release measures

| Small spill                     | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |
|---------------------------------|--|
| Large spill                     | : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. |
| 6.4 Reference to other sections | : See Section 1 for emergency contact information.<br>See Section 8 for information on appropriate personal protective equipment.<br>See Section 13 for additional waste treatment information.  |

## SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

#### 7.1 Precautions for safe handling

| Protective measures                    | : Put on appropriate personal protective equipment (see Section 8).   |
|--|---|
| Advice on general occupational hygiene | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures. |

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

| 7.3 Specific end use(s)    |                  |
|----------------------------|------------------|
| Recommendations            | : Not available. |
| Industrial sector specific | : Not available. |
| solutions                  |                  |

## SECTION 8: Exposure controls/personal protection

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

## 8.1 Control parameters

## **Occupational exposure limits**

No exposure limit value known.

| Recommended monitoring procedures | : If this product contains ingredients with exposure limits, personal, workplace<br>atmosphere or biological monitoring may be required to determine the effectiveness<br>of the ventilation or other control measures and/or the necessity to use respiratory<br>protective equipment. Reference should be made to monitoring standards, such as<br>the following: European Standard EN 689 (Workplace atmospheres - Guidance for<br>the assessment of exposure by inhalation to chemical agents for comparison with<br>limit values and measurement strategy) European Standard EN 14042 (Workplace<br>atmospheres - Guide for the application and use of procedures for the assessment<br>of exposure to chemical and biological agents) European Standard EN 482<br>(Workplace atmospheres - General requirements for the performance of procedures |

| Date of issue/Date of revision    | : 6/29/2021 00568 EU 4/1  |

Y031L (150ppm K+ standard solution)

## **SECTION 8: Exposure controls/personal protection**

for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

#### **DNELs/DMELs**

No DNELs/DMELs available.

#### **PNECs**

No PNECs available.

| 8.2 Exposure controls            |                            |   |
|----------------------------------|----------------------------|---|
| Appropriate engineering controls | : Good g contam            | eneral ventilation should be sufficient to control worker exposure to airborne inants.  |
| Individual protection meas       | <u>es</u>                  |   |
| Hygiene measures                 | before<br>Approp<br>Wash c | nands, forearms and face thoroughly after handling chemical products,<br>eating, smoking and using the lavatory and at the end of the working period.<br>riate techniques should be used to remove potentially contaminated clothing.<br>contaminated clothing before reusing. Ensure that eyewash stations and<br>showers are close to the workstation location. |
| Eye/face protection              | assessi<br>gases c         | eyewear complying with an approved standard should be used when a risk<br>ment indicates this is necessary to avoid exposure to liquid splashes, mists,<br>or dusts. If contact is possible, the following protection should be worn,<br>the assessment indicates a higher degree of protection: safety glasses with<br>ields.                                    |
| Skin protection                  |                            |   |
| Hand protection                  | be worr                    | cal-resistant, impervious gloves complying with an approved standard should<br>n at all times when handling chemical products if a risk assessment indicates<br>necessary.  |
| Body protection                  | being p                    | al protective equipment for the body should be selected based on the task<br>performed and the risks involved and should be approved by a specialist<br>handling this product.  |
| Other skin protection            | selecte                    | riate footwear and any additional skin protection measures should be<br>d based on the task being performed and the risks involved and should be<br>ed by a specialist before handling this product.  |
| Respiratory protection           | appropi<br>respirat        | on the hazard and potential for exposure, select a respirator that meets the riate standard or certification. Respirators must be used according to a tory protection program to ensure proper fitting, training, and other important s of use.   |
| Environmental exposure controls  | ensure<br>In some          | ons from ventilation or work process equipment should be checked to<br>they comply with the requirements of environmental protection legislation.<br>e cases, fume scrubbers, filters or engineering modifications to the process<br>tent will be necessary to reduce emissions to acceptable levels.   |

## **SECTION 9: Physical and chemical properties**

Y031L (150ppm K+ standard solution)

## SECTION 12: Ecological information

## 12.1 Toxicity **Conclusion/Summary** : Not available. 12.2 Persistence and degradability **Conclusion/Summary** : Not available. 12.3 Bioaccumulative potential Not available. 12.4 Mobility in soil Soil/water partition : Not available. coefficient (Koc) Mobility : Not available. 12.5 Results of PBT and vPvB assessment **PBT** : Not applicable. vPvB : Not applicable.

## **12.6 Other adverse effects** : No known significant effects or critical hazards.

## **SECTION 13: Disposal considerations**

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

## 13.1 Waste treatment methods

| Product             |  |
|---------------------|--|
| Methods of disposal | : The generation of waste should be avoided or minimized wherever possible.<br>Disposal of this product, solutions and any by-products should at all times comply<br>with the requirements of environmental protection and waste disposal legislation<br>and any regional local authority requirements. Dispose of surplus and non-<br>recyclable products via a licensed waste disposal contractor. Waste should not be<br>disposed of untreated to the sewer unless fully compliant with the requirements of<br>all authorities with jurisdiction. |
| Hazardous waste     | <ul> <li>Within the present knowledge of the supplier, this product is not regarded as<br/>hazardous waste, as defined by EU Directive 2008/98/EC.</li> </ul>  |
| Packaging           |  |
| Methods of disposal | <ul> <li>The generation of waste should be avoided or minimized wherever possible.<br/>Incineration or landfill should only be considered when recycling is not feasible.</li> </ul>   |
| Special precautions | : This material and its container must be disposed of in a safe way. Empty containers<br>or liners may retain some product residues. Avoid dispersal of spilled material and<br>runoff and contact with soil, waterways, drains and sewers.  |

## **SECTION 14: Transport information**

user

14.6 Special precautions for : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

## SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture EU Regulation (EC) No. 1907/2006 (REACH)

## Annex XIV - List of substances subject to authorization

### **Annex XIV**

None of the components are listed.

#### Substances of very high concern

None of the components are listed.

#### Annex XVII - Restrictions : Not applicable.

| on the manufacture,   |
|-----------------------|
| placing on the market |
| and use of certain    |
| dangerous substances, |
| mixtures and articles |
|                       |

## **Other EU regulations**

: All components are listed or exempted.

## **Europe inventory Seveso Directive**

This product is not controlled under the Seveso Directive.

#### International regulations

**Chemical Weapon Convention List Schedules I, II & III Chemicals** Not listed.

#### **Montreal Protocol**

Not listed.

#### Stockholm Convention on Persistent Organic Pollutants

Not listed.

## **Rotterdam Convention on Prior Informed Consent (PIC)**

Not listed.

#### **UNECE Aarhus Protocol on POPs and Heavy Metals**

Not listed.

| 15.2 Chemical Safety | 1 | This product contains substances for which Chemical Safety Assessments are still |
|----------------------|---|--|
| Assessment           |   | required.  |

Y031L (150ppm K+ standard solution)

## **SECTION 16: Other information**

| Indicates information that has changed from previously issued version. |   |  |  |
|--|---|--|--|
| Abbreviations and  | : ATE = Acute Toxicity Estimate   |  |  |
| acronyms   | CLP = Classification, Labelling and Packaging Regulation [Regulation (EC) No. |  |  |
|  | 1272/2008]  |  |  |
|  | DMEL = Derived Minimal Effect Level   |  |  |
|  | DNEL = Derived No Effect Level  |  |  |
|  | EUH statement = CLP-specific Hazard statement                                 |  |  |
|  | PBT = Persistent, Bioaccumulative and Toxic                                   |  |  |
|  | PNEC = Predicted No Effect Concentration                                      |  |  |
|  | RRN = REACH Registration Number   |  |  |
|  | vPvB = Very Persistent and Very Bioaccumulative                               |  |  |

#### Procedure used to derive the classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

| Classification                            |                   | Justification |
|---|-------------------|---------------|
| Not classified.                           |                   |               |
| Full text of abbreviated H statements     | : Not applicable. |               |
