

A-d Integrated Management System (IMS)

Integrated Management System (IMS)

IMS (Integrated Management System) is a management system that integrates the ISO9001 quality standard, the ISO14001 environmental standard and the occupational health and safety certification OHSAS18001. HORIBA, Ltd. and HORIBA STEC Inc. employ IMS in combination with the ISO13485 quality management system for medical devices.

In April 2011, the Japan Quality Assurance Organization (JQA) granted the JQA Integrated Management System Certification (JQA-IG0001-07) to the HORIBA Group in the group IMS* category. We are aiming to have our major overseas production bases obtain accreditation for ISO9001 (quality) and ISO14001 (environmental) standards.

In addition, the Kyoto Analysis Center of HORIBA, Ltd. was approved by the Japan Accreditation Board as a test station for ISO/IEC 17025:2005 (RTL00880) (chemical testing) in June 2001. Also the CS of the HQ at HORIBA Techno Service Co., Ltd., one of our group company, was accredited by the National Institute of Technology and Evaluation as a CAB for ISO/IEC 17025:2005 (ASNITE 0033C) Calibration of Emission Test Facilities in August 2009.

IMS Target Achievement Radar Chart for 2011
