Major Web Pages of Gaiapress

Red Data Animals

~ The Ark of Gaia ~

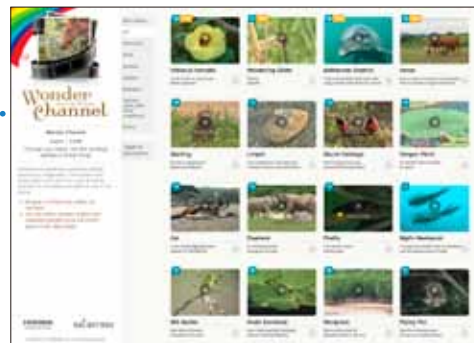

This web page contains information on endangered species of animals that have been listed in different versions of the Red List (IUCN Red List of Threatened Animals) up until 2004, published by the International Union for Conservation of Nature and Natural Resources (IUCN). It provides us with an opportunity to focus our attention on the importance of the rich diversity of life as an invaluable asset of the world.

Wonder Channel

~ Amazing Abilities of Living Things Revealed through Images ~

The videos on these web pages highlight the amazing sensing abilities of animals, insects and plants, and enable us to appreciate the importance of feeling and measuring the existence of living things from different perspectives.

SUPER SENSORIUM

These web pages provide information on the life networks, biodiversity and capabilities of living things. Readers are also able to learn about the Convention on Biological Diversity and the Biodiversity Center of Japan.

Super Nature

~ Mystery Exploration Party ~

These web pages present many interesting mysteries in three different categories: the Mysterious World of Living Things, Communicating with the Unknown and the Mysteries of Science. Join us in as we explore unknown worlds that are the subject of scientific study.
